PROFORMA INVOICE — EDUTRUSTPAY & EDUTRUST SCHOOLS

BILL TO

The Education Secretary
[Name of the Education Secretariat / Diocese / Education Agency]
[Address, Region], Cameroon

Proforma Invoice No: INV-2026-EDTP-001

Date: November 10, 2026

Project: EdutrustPay Body Management Console and the EduTrust School Management System for Member Schools

This proforma covers two parts of one project. First, the EdutrustPay Body Management Console, from which the Education Secretariat follows the fees, budgets, staff and compliance reports of every school it oversees. Second, the EduTrust School Management System in each member school, with a one-off setup fee per school and an annual fee per student.

PART 1: EDUTRUSTPAY BODY MANAGEMENT CONSOLE — ONE-OFF PACKAGE

Item	Description of Work	Amount (XAF)
A	**Setup & Deployment** Installation of the console on a secure cloud server with its own web address and encrypted (HTTPS) access. Creation of the secretariat's account and its rules: approved fees, reporting deadlines and compliance rules. Each member school is linked to the console to send its reports.	Included
B	**Migration** Loading of the secretariat's current information: member schools with their levels and contacts, approved fee schedules and rules, and the accounts and roles of secretariat staff (Education Secretary, bursary and accounting staff, auditors).	Included
C	**Training** Hands-on training for the Education Secretary and secretariat staff: reading each school's monthly and annual reports, the Compliance board, comparing budgets across schools, raising and following up findings, Excel downloads and printing, and managing who has access.	Included
D	**User Manual** A complete, illustrated user manual, from adding schools to day-to-day follow-up, with a section for the accounting staff. Available online and as a printable copy.	Included
TOTAL — EdutrustPay Body Management Console (Items A–D)		**250,000**

Amount in Words: Two hundred and fifty thousand CFA francs

PART 2: EDUTRUST SCHOOLS — SETUP & MIGRATION FEE (PER SCHOOL)

Each school pays a one-off setup and migration fee. It is quoted separately for each school after prospection: a visit to the school to assess its needs. The fee depends on the modules the school will use, the size of the school, and the volume and condition of the records to be migrated.

No.	Module and what it covers	Fee (XAF)
1	**Students & Admissions** Student records, admissions and the online application portal, class lists, student ID cards, promotion and exits.	After prospection
2	**Academics** Subjects and teaching assignments, timetables, attendance, terms and sequences, marks and report cards. Also nursery competences and GCE candidates where they apply.	After prospection
3	**Fees & Bursary** Fee structures, discounts and fines, fee collection and receipts, payment plans, and payments made by parents.	After prospection
4	**Accounting & Budget** Chart of accounts, daybook, income and expenses, general ledger, budget sheets, fixed assets and financial reports.	After prospection
5	**HR & Payroll** Staff records, departments and designations, leave, staff attendance, payroll, payslips and tax reports.	After prospection
6	**Parent Portal** Parents follow fees, results, attendance, the timetable and notices online.	After prospection
7	**Boarding, PTA, Events & Announcements** Boarding management, PTA contributions, the school calendar and announcements.	After prospection
8	**Connection to EdutrustPay: monthly and annual reports sent to the Education Secretariat**	**Part of every setup**

I-NNOVA CM

For each school, the setup and migration fee covers:

- Installation of the system for the school, online or on the school's own server.
- Configuration of the modules the school chooses (classes, fee structures, accounts, staff structure and so on).
- Migration of existing records into the system: students, fee balances, staff and opening balances, from Excel, paper registers or a previous system.
- Training of the school's administration, bursary and accounting staff.
- The school's user manual.
- The school's connection to the EdutrustPay console.

PART 3: EDUTRUST SCHOOLS — ANNUAL PLATFORM SERVICE FEE

Once a school is live, it pays an annual platform fee for each student. The fee depends on the level of the school:

School Level	Fee Structure
Nursery / Primary	**1,000 XAF per student per Academic Year**
Secondary / High School	**1,500 XAF per student per Academic Year**
University / Higher Institute	**2,000 XAF per student per Academic Year**

The fee covers comprehensive system access to all the modules the school uses, plus hosting, support, maintenance, security updates and the school's reporting to the EdutrustPay console.

Upgrades, Updates & New Features: from go-live onward, all future software upgrades, updates and new features are provided free of charge, at no additional cost to the schools or the Education Secretariat, for as long as the Annual Platform Service Fee remains active.

Example only. How the annual fee works out for three typical schools:

Example School	Students	Rate (XAF)	Annual Fee (XAF)
A nursery / primary school	400	1,000	400,000
A secondary / high school	600	1,500	900,000
A higher institute	300	2,000	600,000

PART 4: PAYMENT SCHEDULE

Description	Amount (XAF)
EdutrustPay Body Management Console (Part 1)	**250,000**
Milestone 1 — Mobilisation, on acceptance of this proforma (50%)	125,000
Milestone 2 — On completion of training and handover of the user manual (50%)	125,000
Balance Due Now (Milestone 1)	**125,000**
Setup & migration fee for each school (Part 2): quoted and invoiced per school after prospection	Per quotation
Annual platform service fee (Part 3): invoiced per school at the start of each academic year, on the school's confirmed enrolment	Per student

PAYMENT METHOD

Payments are made via **MTN MOMO** to Account **671008494** (Atangabua Barry Achonduh). Please share the transaction reference with I-NNOVA CM so that each payment is acknowledged in writing.

AMOUNT FIXED BY THIS PROFORMA (Part 1): 250,000 XAF

Amount in Words: Two hundred and fifty thousand CFA francs. Parts 2 and 3 are invoiced per school.

SYSTEM SECURITY FEATURES

Application-Level: Role-Based Access Control, data encryption at rest and in transit (TLS 1.3), secure authentication, audit logs of every sign-in and action, and protection against SQL Injection and XSS.

Cloud-Level: Tier-1 cloud hosting, firewall and intrusion detection, automated backups and disaster recovery.

Data Ownership: each school's records stay in the school's own system. The EdutrustPay console only receives the reports that the school sends, and it never changes anything inside a school's system.

QUALITY ASSURANCE & COMPLIANCE

The console and the school system will be configured to follow the Education Secretariat's own rules and policies, and the standard operational and financial frameworks for schools in Cameroon. Quality assurance checks are carried out throughout setup and migration, so that each school's figures reach the secretariat complete and in line with the approved guidelines.

We remain open to discussion on any line item above and are happy to revise this proforma as needed.

Sincerely,
I-NNOVA Director
OBED DESTINE ATANGABUA
